

Grain Marketing Intern

South Dakota Soybean Processors

Department: Commercial

Position: Intern

Reports to: Merchandising Manager

Position will start immediately and could extend through summer into the next school year.

Responsibilities: Assisting the Commercial Merchandisers with various aspects of soybean and soy meal trading. Will include assisting in soybean procurement and soy meal sales. May include assisting with truck and rail logistics, data entry and various accounting activities. May also spend time researching special areas in the soybean processing industry.

Requirement: General knowledge of agriculture marketing with strong communication skills. Computer experience in Excel desirable and other computer experience is favorable. Student should be in good academic standing, preferably a junior or senior.

Advantages of Internship: Great for future in grain marketing, marketing, or brokerage. The internship offers knowledge in national/international trade, helps develop excellent communication skills, and allows the intern to experience first hand the scope and structure of a mid-sized company.

Location: Volga, SD
